Malicious Hackers and “Hacking Tools” on the Internet

- Michael Simpson (2006) notes that many malicious hackers do not possess outstanding technical skills, but know how to locate sophisticated “hacking tools” that can be downloaded from the Internet for free.
- Many of them also know how to take advantage of “holes” in computer systems.
- Sophisticated programmers refer to these individuals as “script kiddies” or “packet monkeys” because they copy code from knowledgeable programmers as opposed to creating the code themselves.
